ASPEN'S NEW SIGNATURE FLAVORS

Hotel Jerome's longstanding tradition of culinary excellence is showcased in its variety of dining options, including Prospect, the newest addition to Aspen's renowned culinary scene. Offering modern preparations of classic cuisine, this new bistro serves a wide array of innovative American dishes in a distinctive, stylish setting.

The Living Room also beckons with its richly inviting furnishings, tapas style cuisine and signature cocktails. And of course there's the beloved J-Bar, once Hunter S. Thompson's de facto office, where you can saddle up to the famous chinoiserie bar for the best burger in town. No wonder the J-Bar is known as Aspen's favorite watering hole.

RESTORATION AND RENEWAL

Inspired by Aspen's history, the new Auberge Spa treatment program reflects the traditions of natural healing practiced for centuries in the Roaring Fork Valley. The intimate, modern facility offers treatments that incorporate medicinal plants and river-bed minerals used by the Ute Indians for promoting health and well being.

With its vast menu of revitalizing treatments, the spa celebrates the resurgence of natural alternatives and integrates them with advanced technology to support balance, health and vibrancy. For an invigorating workout with mountain views, the fitness center features Precor equipment and a functional training area with a TRX station.
